Dear Mbali

As a courtesy, I'm alerting the JSC to information I received yesterday from the advocate in the Office of the Public Protector ('PP') investigating my complaint about the JCC's failure to have acted on my unresolved misconduct complaint against Portia Poyo Dlawati JP, filed nearly three years ago: *'I will escalate this non-cooperation to our senior management for their intervention.'*

The *'non-cooperation'* to which the PP investigator is referring is the JSC's failure to even acknowledge receipt of the PP's referral of my complaint that I made to the PP back to the JSC for action, let alone to respond to it. Even after a follow-up request by the PP for an acknowledgment, which the JSC also ignored.

One might be forgiven for thinking that like the NPA, as Gauteng's Shadow MEC for Health Jack Bloom described it recently, the JSC is also *'just a black hole ... things go there and nothing comes out.'*

So we really need to get cracking.

Sincerely

Anthony
